Extradition Of Bradley Stalled Again

(Special to the States-Item)

LOS ANGELES — A radio evangelist accused by District Attorney Jim Garrison of conspiring to kill President John F. Kennedy has been granted another delay in his bid to avoid extradition to New Orleans.

Eugene Bradley, 49, of North Hollywood, won his second continuance yesterday.

The postponement came after Gov. Ronald Reagan reported he has not reached a definite decision on the matter. Bradley said he feels confident Reagan will rule against extradition.

At a hearing in June in Sacramento, Bradley denied any involvement in the assassination.
